

Introducing a brand new resource  
for healthcare professionals

# Cushing's Syndrome Knowledge Centre

**Free & simple registration for all  
healthcare professionals**

- What is Cushing's Syndrome?
- How many people develop it?
- How do I spot it in my clinic?

Medical education through an engaging and immersive website

[www.cushingsyndrome.org](http://www.cushingsyndrome.org)

**epgonline.org**

the website for  
healthcare professionals

(Not intended for healthcare  
professionals outside Europe)

# Cushing's Syndrome Knowledge Centre

## A new website for healthcare professionals

### Disease Overview

Understand the importance of cortisol levels and the HPA axis through in-depth epidemiology, pathophysiology and symptoms of Cushing's Syndrome.

### Diagnosis

Non-specific and varying symptoms can make diagnosis difficult. Learn how to differentiate between causal factors.

### Disease Management

Access the latest information on treatment, including guideline recommendations and managing comorbidities.

### Case Studies

Try our patient case studies and compare what you would do with the recommendations of Professor Grossman.

**Could you diagnose the symptoms of this rare and severe endocrine disease?**

Free and simple registration: [www.cushingsyndrome.org](http://www.cushingsyndrome.org)

**epgonline.org**

the website for  
healthcare professionals

Developed by EPG Health Media  
(Europe) Ltd for [epgonline.org](http://epgonline.org),  
supported by an unrestricted  
educational grant from HRA Pharma
